

To whom it may concern,

This is a letter of recommendation for Cindy Bower and Peggy Ward, power skating instructors. I have known both Cindy and Peggy for seven years and have worked with them each year. My name is Bruce Boudreau and I am the Head Coach of The Manchester Monarchs of the AHL. They are dedicated , professional, reliable, and knowledgeable. I have used them for both my professional hockey players as well as my Golden Horseshoe Hockey School which I have operated for 19 years. They are very knowledgeable and have great people skills. They know how important good skating is to hockey players and they strive to help each player get the most out of each stride. Cindy and Peggy are tough and demanding but always get results for their efforts. They demand the full attention and effort from each player they work with regardless of his age, size, stature, or status. I feel that Cindy Bower and Peggy Ward are a tremendous pair of power skating instructors. If you have the option of choosing both Cindy and Peggy for your hockey players I would highly recommend it.
